Pipe cannons are the main vehicles for adventurers who don't have time for excursions as they send Mario to a remote location for a moment. The pipe cannons in each world will appear on the map screen if you find a hidden target on some levels. These hidden targets, which will help you advance in full throttle, are here: World 1-3Casi world end 1-3, you will see three platforms full of Koopa soldiers and Goombas (just to the right of the Piranha plant yellow tube). On the right, on these platforms, there is a small edge of grass with vertical surfaces on the front, which reaches the top of the screen. If you move to that podium above Yoshi and jump again by pressing the control cross, you will appear at the top of the screen. Run a little to the right and enter the secret pipe where the hidden goal is, so you can access the pipe gun that leads directly to the World 5.World 2-6To reach the hidden goal of the world end 2-6, you need champicopter you had to take over the level. At some point you will find yourself on a pink and white rotating cube, which in advance until the road is left, and then continue spinning. Turn jump left and you will see a red tube. Go for it to find a hidden target that will allow you to reach the pipe gun that also leads to World 5.World 3 - Haunted House in this terrible place takes place in all sorts of strange phenomena, but also a hidden one-way ticket from World 3 to World 6. At one point, you have to take Mario down the rope as boos approach everywhere. When you get to the yellow mobile platform, you just need to jump on it, and then get back to earth. You will find a hidden platform and door. Through the door there is a forklift platform that goes down in the infected area Boos are coming to you. However, if you go through it safely, you will find a hidden target and see where the tube cannon goes to the World 3 screen map. An extra life there is nothing like catching one of the precious 1UP mushroom feelings. How would you like to have an extra endless life for the rest of your trip? If you manage to do this trick, you will soon be ready for an adventure that awaits you, because in a moment you will accumulate an unlimited 1UP! Right at the end of the world 2-3, you will exit the pipe and you will find yourself in front of the stone stairs and Koopa Troopa, which will be towards you. Jump into any of the huge rock steps and wait for Koopa Troopa to be straight into the next step for you. In that snap he jumps over Koopa Troopa to get into his shell and bounce on the wall. If you do this at the right time, you will not need to press more button, because your character will stay above the body, it will move at full speed and you will take one 1UP after another. If you don't get it for the first time, just pull the Koopa shell from the right screen, swipe in and go left to get back into action and try again. Easily? Try it and you'll know! Beat up BowserLarry's henchmen, Morton, Iggy, Wendy, Lemmy, Roy and Ludwig, Bowser's henchmen, there are seven enemies you have to face at some point on the tour via the New Super Mario Bros Wii. If you are running at the right time and you do not lack courage, there is a way to make no great effort to lower each of them. You can defeat all bowser's henchmen by jumping on them three times. The problem is the type of attack they carry between each of your jumps. Everything will be much easier if, after your first accurate attack, you coordinate your next leap to reach the enemy you encounter, instantly when it comes out of the shell. In this way, you will not be able to take your favorite offensive tactics and you will be on the boat, jump and jump from victory.
